The little amp with a big tone and a feature-set designed to give players just what they need when they’re not on-stage has finally proven that a gig or session isn’t the only place you should expect the perfect tone. And now that tone's getting even better - the newly upgraded THR5v2 and THR10v2 feature enhanced cabinet behaviors such as multi-mic’d speaker simulation, for better sound quality with cleaner cleans and dirtier distortion.Eminently portable, THR amps run on both AC and battery power, guaranteeing that you’ll sound great no matter where you are. Each of the five THR amps has its own distinctive sound, feel, and tone, with amazingly natural, sought-after tones on tap. From shimmering acoustic tones, soaring leads, crunchy power riffs, to all-out metal mayhem, the THR series has got you covered.Built to ensure that you sound great and play better, THR amps deliver quality audio playback that allows you to practice along with external audio sources in hi-fi sound. When inspiration strikes, the integrated USB port means that you can lay down tracks effortlessly with your bundled copy of the renowned Cubase AI DAW software. For even more flexibility, you can download THR editor, giving you more detailed control of your THR’s tone, effects, and overall sound.Whatever your style, whatever your preference, wherever you are, THR meets the offstage demands of guitarists across the nation and beyond. It's not just an amp, it's a THR.
