Proof of Purchase Note that service will be delayed if proof of purchase is not supplied. Following these instructions will ensure you extend the lifetime of your Alder products and maintain the lustrous finish. Regular Cleaning It's best to use a warm diluted soapy solution and a dry soft microfibre cloth to clean your products to maintain the lustrous finish. We recommend that you immediately wash off any residue left by liquid soap, shampoo, shower gel or toothpaste after use. Do not use harsh cleaning agents containing caustics, abrasive, citrus acid, bleach, vinegar or alcohol ingredients. Do not use abrasive cloths or scouring pads or the surface will become damaged. Use of harsh cleaning agents or abrasive cloths will void the warranty for the product. Mineral Deposits Due to impurities in most water supplies, regular cleaning of aerators and shower heads is recommended on a monthly basis.

Overtime impurities in the water may appear as brown spots on stainless steel metal shower hoses. This is not rust and just a buildup of mineral deposits. Outside Elements Salt spray and chlorine can cause damage to product finishes. Avoid locating the products in environments that are exposed to the outside elements. The occasional application of a nonabrasive polish such as Mr Sheen™ helps prevent water spots on these finishes. You can unsubscribe at any time. You can unsubscribe at any time.
