## SEASON 3

**NOTE:**  
The show received a huge jump in production value at the beginning of season 3. Character models and animations got polished and everything looks better.

Anakin, Ahsoka and Obi-wan infiltrate a Separatist prison. This arc highlights Anakin's bad influence on Ahsoka through the lens of then-Captain Tarkin.  
\*Citadel

## HONORABLE MENTIONS

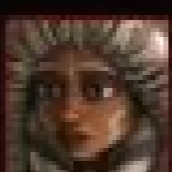

- SPHERE OF INFLUENCE**  
A very meta episode that features Senator Lull and Senator Chuchi's second appearance.
- HEROES ON BOTH SIDES**  
The Separatist fight gets their players and teams to finish, the Ahsoka family are introduced.
- MORTIS ARC**  
An ambiguously named "What If" collection of the future paths Anakin, Ahsoka, and Obi-wan might take.

## SEASON 4

**A FRIEND IN NEED**  
Lux Bonteri and a disguised Ahsoka meet the Deathwatch to exact revenge on Dooku. This episode is oddly heavy with the violence and sexuality.

## HONORABLE MENTIONS

- DECEPTION ARC**  
Obi-wan takes his death and gets undercover to kill Cad Bane's plan to bring Republic. "The Star" is an homage to the movie "The Color".
- RETURN OF MAUL ARC**  
The Nightsisters are obliterated and King Bumi's bounty hunter and Queen Maul comes back from his exile.

## SEASON 5

**MAUL'S EMPIRE ARC**  
Maul and Savage team up with the Death Watch to take over Mandalore. A very dramatic and violent arc that justifies Maul's return.

- YOUNGLING ARC**  
Ahsoka leads a group of Younglings who are captured by Hondo Lull. They all must work together to fend off Grievous.

The Machete order is simple: you remove The Phantom Menace. Why? You just have 11 movies to watch alongside the two spin-offs. If you're watching the Star Wars movies for the very first time, welcome my young Padwan. A lot more. While several are either unknown to many fans (like niche 1980s animation series Droids), others have been completely disavowed by Star Wars creator George Lucas (looking at you, Holiday Special). We also expect Obi-wan Kenobi to add more layers to the Jedi's story too as it's set 10 years after Revenge of the Sith, so around the Solo movie timeframe. All Rights Reserved. Disney Plus UK is a one-stop-shop for virtually all Star Wars content, with the entire Skywalker Saga and recent spin-offs available to stream. If you start the movies in this order you could watch them in a weekend. How to watch the Star Wars movies in chronological order: Episode I: The Phantom Menace (1999) Episode II: Attack of the Clones (2002) Star Wars: The Clone Wars (2008-2020) Episode III: Revenge of the Sith (2005) Solo: A Star Wars Story (2018) Star Wars Rebels (2014-2018) Rogue One: A Star Wars Story (2016) Episode IV: A New Hope (1977) Episode V: The Empire Strikes Back (1980) Episode VI: Return of the Jedi (1983) Episode VII: The Force Awakens (2015) Episode VIII: The Last Jedi (2017) Episode IX: The Rise of Skywalker (2019) Or, going by movies only: Episode I: The Phantom Menace (1999) Episode II: Attack of the Clones (2002) Star Wars: The Clone Wars (2008) Episode III: Revenge of the Sith (2005) Solo: A Star Wars Story (2018) Rogue One: A Star Wars Story (2016) Episode IV: A New Hope (1977) Episode V: The Empire Strikes Back (1980) Episode VI: Return of the Jedi (1983) Episode VII: The Force Awakens (2015) Episode VIII: The Last Jedi (2017) Episode IX: The Rise of Skywalker (2019) Pros: If you choose to watch the Star Wars movies in chronological order, you'll be living the story along with the characters, following the official chronology of the series. THREE-WAY TIE The Phantom Menace (IMDb score 6.5), Attack of the Clones (IMDb score 6.5) and The Rise of Skywalker (IMDb score 6.5) 12. Below, we have every Star Wars movie as well as the spin-offs. Mandalorian and the spin-offs. The Acolyte will come years later. The Phantom Menace and lastly, The Bad Batch spins-off the Clone Wars, and follows on from the series.Cons: It's a lot! Get ready to spend every waking minute catching up. We'll confirm the placement of Disney Plus Star Wars series like Obi-Wan Kenobi, The Bad Batch and Andor when they're released.Star Wars: The Acolyte (upcoming)Episode I: The Phantom Menace (1999)Episode II: Attack of the Clones (2002)Lego Star Wars: The Yoda Chronicles (2013 to 2014)Lego Star Wars: The Padawan Menace (2011)The Clone Wars (2008 to 2014)Episode III: Revenge of the Sith (2005)Star Wars: The Bad Batch (upcoming - May 2021)Solo: A Star Wars Story (2018)Obi-Wan Kenobi (upcoming) Star Wars Rebels (2014 to 2018)Andor (upcoming - 2022)Rogue One: A Star Wars Story (2016)Star Wars: Droids (1985 to 1986)Episode IV: A New Hope (1977)Star Wars: Holiday Special (1978)Lego Star Wars: The Empire Strikes Out (2012)Episode V: The Empire Strikes Back (1980)Episode VI: The Return of the Jedi (1983)Lego Star Wars: The Freemaker Adventures (2016 to 2017)Lego Star Wars: Droid Tales (2015)Ewoks (1985 to 1986)The Mandalorian (2019-present)The Book of Boba Fett (upcoming - December 2021)Ahsoka (upcoming)Rangers of the New Republic (upcoming)Star Wars: Resistance (2018 to Present)Lego Star Wars: The Resistance Rises (2016)Episode VII: The Force Awakens (2016)Episode VIII: The Last Jedi (2017)Episode IX: The Rise of Skywalker (2019)Star Wars: Forces of Destiny (2017-)Pros: The ultimate fan wants the ultimate Star Wars saga order. Perhaps the best way for you is the release order. Of course, Disney has added to the canon and more than replaced what was taken away. And that's assuming you make it through the divisive prequels, a feat that might require you to use the Force, or don't want to have to rush through the full Mandalorian series on Disney Plus.If you're looking for the Star Wars complete saga - that's including the Mandalorian - then skip to that section further down the page.Star Wars movies in release date order (L-R) Mark Hamill, Carrie Fisher and Harrison Ford in Star Wars: A New Hope (1977)Next up, watching the Star Wars movies in release order.It may not marry up to the chronological order of the story, but this release date order allows you to experience it how the rest of the world did.You can also observe how cinematic techniques have developed (or not developed) over time.Here's how to watch the Star Wars movies in release order.Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode VI: Return of the Jedi (1983)Episode I: The Phantom Menace (1999)Episode II: Attack of the Clones (2002)Episode III: Revenge of the Sith (2005)Episode VII: The Force Awakens (2015)Rogue One: A Star Wars Story (2016)Episode VIII: The Last Jedi (2017)Solo: A Star Wars Story (2018)Episode IX: The Rise of Skywalker (2019)If you want to watch the Star Wars movies in release order with the TV series (in italics) we've got that list for you too.Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode VI: Return of the Jedi (1983)Episode I: The Phantom Menace (1999)Episode II: Attack of the Clones (2002)Episode III: Revenge of the Sith (2005)Star Wars: The Clone Wars (2008-2020)Star Wars Rebels (2014-2018)Episode VII: The Force Awakens (2015)Rogue One: A Star Wars Story (2016)Episode VIII: The Last Jedi (2017)Star Wars: Resistance (2018-2020)Solo: A Star Wars Story (2018)Episode IX: The Rise of Skywalker (2019)The Mandalorian (2019-present)The Book of Boba Fett (2021-present)Andor (upcoming 2022)Kenobi (upcoming 2022)Ahsoka (upcoming)Pros: Enjoying Star Wars by release date, aka the purist way, means you watch the movies in the same order they originally came out in cinemas. Some claim there are five different orders you can watch the Star Wars saga in, but there are a few widely accepted preferred ways.The three seen as the best in telling the Skywalker story are the order of episodes (chronological), production (release date), and the Godfather cut. There are pros and cons for all of these of course, which we've broken down for you.SponsoredBring the cinema home with Sky CinemaUpgrade now for just £11 a month to enjoy blockbusters like The Suicide Squad, Peter Rabbit 2 and Godzilla vs Kong, alongside a selection of festive flicks like A Boy Called Christmas and Elf - all from the comfort of your own home. Shop the promotion on Sky CinemaSubscribe to Disney Plus for £79.90 for a whole year or £7.99 a month There's no better time to tackle the Star Wars movies in order as Lucasfilm is working on a whole raft of Star Wars series including Obi-Wan Kenobi, Ahsoka, Andor, Rangers of the New Republic, The Acolyte, Star Wars: Visions, Rogue Squadron and A Droid Story.Here's how to watch the Star Wars movies in order.Star Wars movies in chronological timeline order Star Wars Episode I - Phantom Menace starring Ray Park as Darth Maul (LucasFilm, Sky, HF)The Star Wars movies in chronological order sets the movies in a real timeline so you experience the story as it would unfold for the characters. There's also the Machete order that cuts The Phantom Menace. We'd also recommend the release date order if you're treating your kids to the franchise for the first time.Star Wars movies on Disney Plus (L-R): Fenec Shand (Ming-Na Wen) and Boba Fett (Temuera Morrison) in Lucasfilm's THE BOOK OF BOBA FETT, exclusively on Disney+. Spin-off Andor. is set five years before Rogue One, so it's nearer Rebels and the new series; The Book of Boba Fett, Rangers of the New Republic are all before The Force Awakens. © 2021 Lucasfilm Ltd. As Hilton explains: "The reason to skip Episode I isn't that it's bad, it's that it's irrelevant."The thinking is that the Star Wars saga better works as the tale of Luke Skywalker, not Darth Vader. Hilton argues Episode I adds nothing to this story and all of its noteworthy events are summed up in the opening crawl to Episode II.If that explanation doesn't win you over, this thought might: removing Episode I means that, apart from a few lines in Episode II, Jar Jar is virtually removed from the Star Wars saga.Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode II: Attack of the Clones (2002)Episode III: Revenge of the Sith (2005)Episode VI: Return of the Jedi (1983)To continue The Machete Order you then watch the sequel saga:Episode VII: The Force AwakensEpisode VIII: The Last JediEpisode IX: The Rise of SkywalkerBy entering your details, you are agreeing to our terms and conditions and privacy policy. One is in order of episodes (following in-movie chronology), the second is in order of production (going by release date) and the third (the so-called "Godfather cut") to best tell the Skywalker story's plot twists. TIE The Last Jedi (IMDb score 6.9) and Solo: A Star Wars Story (IMDb score 6.9)9. TIE Rogue One: A Star Wars Story (IMDb score 7.8) and The Force Awakens (IMDb score 7.8)6. In terms of what's best, for us it's the chronological viewing order. You can get all the movies in a weekend binge rather, so it's doable compared to the ultimate order. It also makes the saga's inconsistencies glaringly obvious, including Obi-Wan forgetting about Leia's existence despite being present at her birth. Star Wars: The Clone Wars - 18%Only The Phantom Menace, The Rise of Skywalker and Star Wars: The Clone Wars are deemed to be "rotten" by the review aggregator (2002)Episode III: Revenge of the Sith (2005)Episode VII: The Force Awakens (2015)Rogue One: A Star Wars Story (2016)Episode VIII: The Last Jedi (2017)Solo: A Star Wars Story (2018)Episode IX: The Rise of Skywalker (2019)If you want to watch the Star Wars movies in release order with the TV series (in italics) we've got that list for you too.Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode VI: Return of the Jedi (1983)Episode I: The Phantom Menace (1999)Episode II: Attack of the Clones (2002)Episode III: Revenge of the Sith (2005)Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode VI: Return of the Jedi (1983)Episode VII: The Force Awakens (2015)Episode VIII: The Last Jedi (2017)Episode IX: The Rise of Skywalker (2019)Rogue One: A Star Wars Story (2016)Solo: A Star Wars Story (2018)Star Wars: The Clone Wars (2008)Empire of Dreams: The Story of the Star Wars Trilogy (2004)The streaming service also contains every episode of The Mandalorian and will soon boast the series The Book of Boba Fett, Ahsoka, Kenobi, Andor and more.Where else can I watch the Star Wars movies?Disney Plus is the premier location to watch Star Wars online, with the entire Skywalker Saga and both spin-off movies available to stream instantly. Daisy Ridley as Rey in Star Wars: The Rise of SkywalkerIt will take you 25 hours and 7 minutes to watch all 11 live-action Star Wars movies (original versions). Return of the Jedi (IMDb score 8.3)4. Star Wars: The Clone Wars (IMDb score 6.0)It should be noted that the television series The Mandalorian currently has an impressive IMDb rating of 8.8, while the spin-off series The Book of Boba Fett has an IMDb score of 7.9.Check out our dedicated Sci-Fi hub for more coverage. This will take you far longer than a weekend.For those brave enough to view it all, here's the entire Star Wars Saga and limited specials in chronological order. It's also being added to all the time with all the new series.Star Wars movies in "The Godfather" order Star Wars Episode V The Empire Strikes Backstarring David Prowse as Darth Vader (Voice by James Earl Jones)Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode I: The Phantom Menace (1999)Episode II: Attack of the Clones (2002)Episode III: Revenge of the Sith (2005)Episode VI: Return of the Jedi (1983)Pros: The idea of this ordering is to watch the original two Star Wars movies then, after the shock reveal at the end of Empire Strikes Back that Darth Vader is Luke Skywalker's father, jump back to the prequel trilogy to fill in the background of Anakin Skywalker. After Revenge of the Sith, you then return to watch Return of the Jedi, adding new depth to Vader and Luke's final clash without disrupting the big twists of the story.As you may have noticed this ordering evokes the flashback structure of Francis Ford Coppola's classic gangster movie The Godfather Part II (in other words it's Luke, I am your Godfather), and is fairly popular with fans online.Cons: The obvious downside is that it's difficult to fit the newer Star Wars movies and TV series into this structure - probably the best way to watch them in this version is in production order following Return of the Jedi - so it may not be for everyone.Star Wars movies in The Machete Order Carrie Fisher and Mark Hamill as Leia and Luke, respectively, in Star Wars (1977)No, this is nothing to do with knives or, sadly, the Danny Trejo Spy Kids character. Instead, the name comes from Rod Hilton, author of blog nomachetjuggling.com, who sought to fix one of the saga's biggest problems: if watched chronically, the big 'No Luke, I am your father' reveal is ruined.Similar to the Godfather order, the Machete order allows you to enjoy the first two original Star Wars movies - and the shock Empire Strikes Back ending - before jumping into Vader's backstory.However, you might notice a big difference from the Godfather order: The Phantom Menace is missing. After all, this is how most Star Wars fans experienced the intergalactic saga in the first place.Cons: However, George Lucas made more than a few tweaks to the original trilogy following the release of the prequels, and has been vocal about watching them by in-movie chronology instead. Also, thanks to the advent of spin-off movies and TV shows watching this way means you might end up jumping around the story a bit.Complete Star Wars viewing order including TV shows Rosario Dawson as Ahsoka Tano in The Mandalorian, who is getting her own spin-off series (Disney)Although some of the orders above include select Star Wars TV shows and specials produced since 1977, there are more out there. Ahsoka came from Clone Wars, then popped up in Rebels and was last seen in The Mandalorian. All three have their pros and cons. The series returned with a prequel trilogy from George Lucas in 1999 with The Phantom Menace which was later followed by Attack of the Clones and Revenge of the Sith.Since Lucasfilm was acquired by Disney in 2012, we have been given more Star Wars content than ever, including a sequel trilogy (The Force Awakens, The Last Jedi, and The Rise of Skywalker), spin-off films and television series.We have a slate of Star Wars series on the way to Disney Plus, with Bad Batch joining The Mandalorian in May 2021 and The Book of Boba Fett in December 2021.However you may be wondering what order you should enjoy all these films and television series in.The Star Wars order is fairly straightforward if you just take the nine episodic movies in the Skywalker Saga, along with the spin-offs Rogue One: A Star Wars Story and Solo: A Star Wars Story and watch them.Things get more complicated when you add in the TV shows like Clone Wars, Rebels and The Mandalorian. This count includes the nine instalments from the Skywalker saga and the two anthology movies, Rogue One and Solo. The Prequel Trilogy, Original Trilogy and The Clone Wars animation all remain canon. Star Wars Episode III - Revenge Of The Sith starring Ian McDiarmid as Supreme Chancellor PalpatineThough some sources claim there are up to five different orders you could watch the Star Wars saga in, there are three generally accepted ways to do it. A New Hope (IMDb score 8.6)3. Disney Plus has all the Star Wars movies (in 4K too), as well as the shows and breakout standalone shorts and animations.If you're ready to watch the Star Wars movies and shows in the order you have a few options. You can unsubscribe at any time.Star Wars movies in The Rinstar OrderThe Rinstar Order - named after superfan Ernest Rinstar - has also gained some prominence in recent years among the Star Wars community.If it looks the same as the Godfather order, that's because it is - but the Rinstar method might well have come first.Episode IV: A New Hope (1977)Episode V: The Empire Strikes Back (1980)Episode I: The Phantom Menace (1999)Episode II: Attack of the Clones (2002)Episode III: Revenge of the Sith (2005)Episode VI: Return of the Jedi (1983)What's the best Star Wars movie order? At its core, it's a story of how the younger Skywalker takes on a gigantic burden, saving the Galaxy - and his father - from the Dark Side. Subscribe to Disney Plus for £79.90 for a whole year or £7.99 a month.If you haven't got a Disney Plus subscription, other options are available: The Rise of Skywalker is available to stream on NOW TV until Monday 3rd May 2021.Meanwhile, the digital movie collection (comprised of episodes one to six) is available to buy from the usual channels, such as Amazon, iTunes and Google Play.If you don't fancy splashing out quite that much, most of the Star Wars movies are available to rent for as little as £2.49 on Amazon Prime Video.How long will it take to watch all the Star Wars movies? We've used New Hope as the central point to work out the timeline here.Cons: This order does, however, come with a couple of downsides.
