FTS MOD FTZ 2019 (first kick touch football) Afk Downloads Installation Guide WWE 2k19 Apk and Obb File Download, &T Installation Guide on Android Dream Soccer League (DSL) 2019 UcApk, Obb &Data Download FIFA 20 Game Overview It is not a normal FIFA game in which you play and compete, it is a Modded game in which you wrestle with new models, the features and the things paid for are pre-unlocked. From the initial installation, you can start to enjoy all its premium features and free things. You don't even have to pay for anything in this game like Jersey, Kits, New Stadium, etc. You just need to explore the game and the best combination you like for you and your team. The game control on FIFA 20 MOD has been slightly modified and now the buttons are customized to provide the control of his players. The size of the control buttons such as Kick, Pass, and Sprint have been increased and for this now it is easy to control the game. You too can learn the controls first because it has also been modified to look simple. In addition, the performances in Tournament and Manager mode are now better than the previous ones. There is also a new database that has been included in it, which means you will see new content and new players. DON MISS:194; 160; FIFA Mobile: New era has arrived for Android and IOS In addition, there are three new modes that you can unlock by proceeding into the game. The newly included new ways are Trophies, Penalty Shooting, Achievements, etc. In all these modes , playing will be a bit difficult and you will face difficult challenges. But you will also enjoy playing them. Overall, the FIFA 20 MOD is one of the best football matches you should absolutely play. It has great graphics, Super Star Players, Modern Stadium, Attractive kits, and well-designed Jersey. FIFA 20 MODÀ 160; Download the latest version for Android You won't find this Android game in the official Android App store. In the meantime, you will need to go to the suggested download links to download the APK and OBB data for this game. The OBB data we are going to provide is highly compressed and when you extract it, the total file size will become more than 2GB. So make sure you have enough space on your Phone storage so you can easily install this game. We recommend that you also uninstall all unnecessary applications from your phone to also free RAM. Now, let me show you the full file details of this game. Be sure to read them carefully because it's important. FIFA 20 MOD File Details Name: FIFA 20 MOD APK Size: 63 MB OBB Size: 1.04GB (will become 2.14Gb after decompression) Version: Newest Developer: Electronic Arts Type: Android Sports Required: 4.0 or above Update: 17 September 2019 Now you know the details of the file, the best thing about this game is that you will need to spend 700Mb only to download the Obb data file. Originally, its size is 2.14Gb, which is really big, but you need to spend 700Mb just to download it. Now, click on the respective buttons below to download APK FIFA 20 MOD APK +OBB data. FIFA 20 MOD Download Link Updates* DOTTLOAD FIFA 20 DATA. FIFA 20 OBB DOWLOAD. DOTTLOAD FIFA 20 APK MODO. How to download FIFA 20 MOD APK + OBB on your Android phone? If you have never downloaded a game with the OBB file and you are confused then let me help you. The download links we have provided will redirect you to the Mediafire site. It is a reliable file sharing service that provides high-speed downloads. How to download this game from Mediafire: primo,194; 160? click 160; here; 160? (APK) e 160; (Obb) to visit the Mediafire website where the FIFA 20 MOD is hosted. Wait for the download page to be fully uploaded to your browser. Press the download button and wait for the server to send the file to your browser. Check and accept the download request and wait for the APK file and OBB data to be downloaded. Once downloaded, you226; 128? I'm done. Now, there are a couple of things you should remember and follow to download these files without having to deal with any problems at all. First of all, don't run any application on the background while you're downloading game files, second of all it's just to calm down while the download is happening and third it's to make sure you have enough storage space. Following these three points will help you download this game more efficiently. Let me also guide you to the installation so that you can start playing it right away. Installation of FIFA 20 it will be a bit different from the usual to install an App on Android. However, it has two different files; APK and OBB. Besides, unless you know what. What. of files that are you should never joke with them. Because a mistake can lead to problems in the game. Here we will show you how to properly install FIFA 20 MOD on an Android phone. First, Download and install for FREEÅ™ ZArchiver PRO. It will help to extract the Zip file of FIFA 20 MOD. After that, open it and browse to reach the Download folder of the browser used to download the game file. Tap the Zip file of the game and select Extract here (You can extract it wherever you want). Now, tap the APK file to open the installer. Press NextÅNext, until it is replaced by the Install button. Then press Install and wait for it to be installed. After that, press the Done button to close the installer. Return to the folder and Move the Obb folder of the game to Internal/SD>Android>Obb. Now, open your phone's app drawer and locate the game, tap it to start the game. There she is! Now you can start playing the game without any problem. When you start the game for the first time, you may need to access the internet to retrieve data from memory and to check for updates. So, make sure to activate the internet data before launching the game for the first time. How to install a new database on the game? When you launch the game for the first time, you may feel like you are playing an unmodified game. This is because the new database is not installed or implemented by default. Meanwhile, you need to install the new Database to see new changes like new players, more stadium options, player tattoos, and more. Installing the database will not be a difficult process, it requires the same steps you followed during the extraction of the OBB file. Well, here's how to install the new Database FIFA 20 MOD game: Find the new Database file in the extracted OBB folder. It will be in Zip format, which means you will need to use ZArchiver to extract Follow the same steps as we showed you above to extract the OBB data. Once extracted, copy the Database file and go to Internal Storage/SD>Android->data>game folder. Click Paste and then select Replace from the Overwrite tab. The old database file will already be available, you just need to replace it with the new Database file to see the new content. Finished. Now, go and launch the game again, it may take a few minutes to load after replacing it with the new database. Once the upload is complete, you will see a completely new interface with more options in the game. You will really enjoy the new database elements because there are a lot of interesting new levels and challenging modes. Conclusion FIFA 20 MOD is an excellent soccer game in which we have seen a lot of fresh and new content like Tournament Mode, Mode Manager, etc.And now there are new stadiums that really look attractive and beautiful. In addition, the difficulty in this game is high which was ÅcÅt first in any Android FIFA game. And the new database completely modifies the game and adds some cool options like Tattoos on the player's body, HD Graphics, AI opponents, and more. I hope you enjoyed reading this article about the FIFA 20 MOD? If so, be sure to share it with your friends who are a fan of football and football games.
