If necessary, see the information-free order information of the Fire Training and MU rescue Institute to prepare the student for exams End of the course and written parts of the certification exams, this exam preparation includes 953 questions of the 20 chapters of the driver / pumping operator and appliances, 30. Edition Fire departments with both types of devices needed two manuals, two curricula and driver / operator apprentices needed two preparators for the exams. The publication of the 3rd edition of these manuals simplifies the resources of Formation of IFSTA. Order from Firebooks today! Note of the editor The following summary describes a publication that is available for purchase in printed form or in a USB flash drive. In some fire departments, pumping users and unable appliances must keep your equipment. The driver's manual / operator of pumping apparatus, 3rd edition, covers only pumping apparatus, second book book, driver's manual / pumping apparatus operator, 3rd edition, contains the same 15 chapters that The pumping apparatus manual, in addition to another 5 chapters related to the unreal devices. The Flash Exam Prep unit is a Windows-based application that includes the same 953 questions in the printed version. The staff of the departments that operate both types of equipment now only need a manual and a curriculum for the training. Combined information This Handbook for Drivers and Operators of Pumps and Aircraft combines information from the Handbook of Drivers/Operators of Pumps and Aircraft, 3rd Edition, with additional chapters relating to the use of airborne equipment. If you need a driver's and operator's manual for pumps and aircraft that contains complete and up-to-date information on the use of the equipment, study the chapters in Driver's Manual/Operator of Pumps and Aircraft Equipment, 3rd Edition, is the best option. However, it is much more than a replica of the printed version. ISBN: 9 780 879 395 711The new editions of these best-selling IFSTA firefighting equipment drivers/operators mark a new approach to driver/operator training. Since you need to know how to operate the aerial apparatus and the pumping apparatus, it makes sense to use a resource that covers both subjects. Previously, IFSTA published two separate manuals with support materials for students and instructors: Driver/Pump Device Operator Manual and Driver/Air Device Operator Manual. The flash drive allows the user to select all questions from a given chapter or select a subset of questions based on the page range the user selects.
