Creating the future. Stride Learning Solutions provides flexible online and blended learning programmes that enable students to realise their potential. We work with districts and schools to pave the way for a bright future for all students through our state-of-the-art platform, comprehensive digital course courses and extensive support. Committing to students. Creating the future. Stride Learning Solutions provides online and combined flexible learning programs that allow students to make their potential. We work We work Districts and schools to pave the way to a bright future for all students through our cutting-edge platform, comprehensive digital courses and extensive support. All Inclusive Solution. Infinite possibilities. Stride Learning Solutions offers a wide range of online resources that can be adapted to create educational experiences wishing teachers and students. You imagine the future. We offer the route with a suite of complete options to address a variety of objectives in the districts, within schools and for each student. The programs and the curriculum to inspire learning for life promote better academic results with a wide catalog of digital courses of more than 350 courses designed to develop the knowledge and skills that will position their students by a MaA ± ana próspero. Jumping, start your futures with a modern professional preparation program that goes beyond the traditional technical education experience of the race. Our 12-year courses combine rich content with proven pedagogy to support dynamic, online and combined learning experiences. The courses include english arts / language, mathematics and courses of Nucleus APA® and global languages. English learners and English reading. Intervention and remediation. Mañana. High demand, learning in the world's world, professional networks and consulting services with a localized approach set the stage for future preparation in a line or online environment. Model models for the modern classroom satisfy the demands of today's students with agility. Our flexible solutions can be implemented in several ways in function of your needs. Mixed Model Model On Full Time Line Model A Single Model Model Supplementary Model Collaborate with a team that works so hard for for your students. You'll have the support you need to stopopportunities for you and your students. Back there were days of cumbersome and complicated technology. Stride Learning Solutions is designed to simplify and unify the experience for administrators, teachers and students. As we have learnt more about students [and] how they learn, we have been working to... be able to offer them different classroom models to meet their needs. The Flex Model has allowed us to look at the students and individualize them and support them. With this we could reach the students that maybe the school wasn't their favorite thing, "MINDY B., Tech Coach, Hermiston High School, Oregon" When you are looking to offer a digital resume, or a virtual learning space, you need to work with someone who obviously knows what he's doing, that he has the resources, that he is committed to the process and that he knows beyond your experience. DON M., Director of Secondary Education, Conestoga Valley School District, Pennsylvania* A great impact for me is the ability of Summit [curricular] to identify learning and choose different paths. In our special needs, an alternative educational environment is crucial. Overall, I think Summit is amazing when it comes to a rich curriculum that is easy to use and differentiate for the needs of students. [Stride] has also done a great job making sure we are meeting the standards. In addition, deepening the reports of [Stride] Brightspace is invaluable. «ANNIE B., English Teacher, Colorado Springs, District 11-Achieve Online* Flexible programs provide instructive decision-making where it should be "with the professionals in the classroom. Those who are the most responsible for teaching the curriculum and instruction should be those who use the evaluations wisely and make the decisions that best work for learning students. «PRINCIPAL DR. ALICE D.,High School Bend-La Pine School District, Oregon* More than 20 years of experience teaching 6K 6K 6K 6K online and face-to-face studentsStride community educators to help teachers in 2K+ real-time school districts in the 50 states and more than 100 countries 55K+ teachers, administrators and professionals are trained Stride 10 YRS to deliver millions of online courses to public school districts, rental schools, private schools and students Why Stride Learning Solutions? Trust a prize-worthy solution. *The testimonies are representative of customers of fuel education. Fuel education is being marked as Stride learning solutions in 2021-2022. Put the opportunity to work - for your educators, for your students. Learn how Stride Learning Solutions can help empower your educators and inspire lifelong students. Appredices.
