Heavier weights increase the moment of inertia (MOI), offering stability and reducing side spin, to lower ball flight and launch angle. Lighter weights enhance swing speed, increase backspin for higher ball flight and launch angle to maximise carry distance. Individual weights for Ping G425 Drivers can be bought here. **Kits can only be returned as an entire kit** Custom kits can be arranged. Please contact us for more details. Compatible with the following models: Ping G425 Max (standard weight 26g)Ping G425 LST (standard weight 26g)Ping G425 SFT (standard weight 23g) Please note that incorrect installation and over-tightening risks damaging the screw thread, and such errors are not covered by our warranty or refund policy
