Happy Wheels Unlocked is a bloody ragdoll driving and survival game with an in-game level editor developed by Fancy Force. Users can design their own levels for other players to try out for free. This Happy Wheels demo contains 10 levels and 3 different vehicles. But most importantly, you can play for free! In Happy Wheels you can control a person in a wheelchair, bike or segway. This game is pretty much just a bunch of moving clip art stitched together. To get to the end of each level, you have to overcome all the obstacles that stand in your way. Hitting just one will cause horrific and gory damage. You have been warned, play as you see fit. Or you can just play to see your character hurtle through the level and break every bone in his body. Players who make it to the finish line are much more likely to have their vehicles crash and their characters horribly disfigured, mutilated or dismembered. If you like it, you can play Happy Wheels as an action game. Be fearless, ignore the consequences and enjoy the glorious carnage you unleash on the screen. Racing is only really fun when you can play it like a game without any consequences for you. The same cannot be said for the pathetic characters you control. Enjoy playing Happy Wheels, a free online game for unlocked games. 6969 Controls: Z = Extend, SPACEBAR = Primary Action, Shift & Control = Secondary Action Important!
