After investing heavily in technology, we were missing a trusted partner who could help provide us with much-needed technical depth. Ntiva has proven to be the best partner for our needs. We have been working with Ntiva for more than 11 years. Theyve been proactive. Anytime Ive had any kind of issue, theyve been very good about addressing it. We are very happy with Ntivas strategic service. I dont want to be in the business of server administration or patching or help desk. Those are perfect targets to be outsourced so that we can stay focused on what differentiates us as a business. Every single company today is completely reliant on technology for growth and success. Companies who are technology enabled have a distinct competitive advantage, which is why we chose to partner with Ntiva. "Ntiva is great with managing both Windows and Mac environments, a rare find amongst IT companies. More importantly, I no longer have to wear the IT hat and can focus on my true priorities. "Their team is committed to delivering a great customer experience. If you are looking to work with a professional group that is committed to getting results consistently, consider calling them." "We just made the switch to this IT provider, and we could not be more thrilled with the decision so far. The team is truly surpassing our expectations every day." "Their team gets the job done and has the ability to explain IT issues to anyone with any amount of knowledge." "Once we switched, we realized they have excellent customer service, proactive system management, and quick response time to meet our needs. Their Cloud Solution was economical and easy to transition to." "Very efficient process and knowledgeable. My issues were corrected with ease." "We moved our office in the middle of a pandemic, Ntiva handled our server and had us up and running within a day and a half. We required our downtime to be minimized and this company delivered." "I have always appreciated their approachable style and dedicated responsiveness to our IT support needs." "The IT team is knowledgeable and completes every request promptly and in the best interest of the company. I have had nothing but positive outcomes when requiring IT Support from this company! You guys deliver." "Were so glad that we worked with this IT provider to clean up our server room. Thanks to your team, we can run our business smoothly without worrying about our server and computer equipment frying from the heat." "Since signing up with this MSP, the IT of our 60-year-old business has completely evolved. Their team treats my business like its their own." "I like this tech company because when I call with a problem, no matter what the problem is, they fix it. Every time. Cant get much better than that!" "I just wanted to thank the team at NTIVA (specifically Mark and Isaac) for helping us navigate our server migration. Their patience & expertise were a breath of fresh air for this critical aspect of our operational infrastructure." "Ntiva is a top-notch team of customer-driven professionals who are a pleasure to work with. Choosing them as our IT partner is definitely one of this year's best decisions!" "They have done very well at project management, following exactly what they laid out in the beginning. They have a smart, engaging, and kind team. They're great to work with." "Ntiva is kind, thorough, patient, and courteous in their answers and in making certain I have complete understanding of my issue resolve. Now THAT is customer service!"
