A tool that isn't perfect but can be helpful. Some issues need to be fixed.Reactive and great customer service.Date of experience: July 15, 2025Simple to use & practical. Customer service responses clear and fast.Date of experience: July 17, 2025great tool, very helpfulDate of experience: July 19, 2025Very good so easy OsadharonDate of experience: July 19, 2025PDF Guru has excellent customer service! Each time I've contacted them for support, they have responded quickly and I've been thrilled with the outcomes. Date of experience: July 18, 2025Amazing service and highly recommended Date of experience: July 18, 2025Was easy to download and upload files that need a change on formatDate of experience: July 18, 2025Your service is just super, thank you. AnnaDate of experience: July 18, 2025Please, Dont send me bills any moreDate of experience: May 30, 2025Very bad experience, no product delivered, credited my creditcard and the only response was non refundable! Terrible terribly customer supportDate of experience: July 18, 2025PDF GURU, Stop trying to steal money from my account, because I already know that you have this reputation of wanting to take 49.99 from the account of everyone who accesses your platform, or we will get very farDate of experience: July 10, 2025My experience was excellent. The program includes many features and saves activity in the subscriber's account for reference. The program allows for online work, and the procedures are easy and intuitive.Date of experience: July 18, 2025I signed up for 1 weeks use. I paid 1.99. At no point did I agree to any further payments. 7 days later, they took a payment of 49.99 and refused to refund it. I have explained that I need the money. They have refused to refund this despite me not agreeing to any payment being taken. I have taken the same steps to sign up to check for subscription information but it is nowhere to be seen. It seems people in other countries have been given refunds for similar but not people in GB! Date of experience: July 10, 2025I have also been scammed by being tricked into subscribing for a year without my knowledge. My bank have just informed me that this company attempted to take a further 2 lots of 49.99 so that is almost 150 they have tried to steal from meDate of experience: July 18, 2025This company is clearly a fraud, they use bad practices to get payment data and then charge not approved subscriptions which are an absolute nightmare to get rid of. The product is just OK and not offering anything many other products couldnt offer, their efforts are in SEO and trapping non voluntary customers into recurrent payments that are almost impossible to get reimbursed. Date of experience: July 18, 2025Fast and easy to use! Date of experience: July 18, 2025This company is trying to cheat money for every transaction you pay online. I bought the subscription, when I was paying, they tried to add another transaction making me pay more. The same kind of tricks happened twice and the second time the amount is 50 times higher than the first time. It is so scary to deal with this companyDate of experience: July 17, 2025I AM PRESSED FOR TIME AND ALL THE UP-SALES TAKE TOO LONG TO GET PASS.Date of experience: July 18, 2025Great job. Thank you for your help!Date of experience: July 18, 2025When I had a problem the contact was immediate and efficient. The problem solved without any delay.Date of experience: July 16, 2025Simple Online Tool to Combine PDFsWith our Merge PDF tool, combining multiple files into one document is quick and effortless. Download Article Learn free and easy ways to merge PDF files online or on your computer. Download Article Combining the contents of two or more PDF files is easy, even if you don't have Adobe Acrobat. Many free apps are capable of merging PDF files together. You can do it online using a wide variety of tools, including Adobes free PDF Combiner. You can also do it on your desktop PC with a free third-party app like PDF Merger & Splitter, or with built-in tools like Finder and Preview on Mac. This tutorial will teach you quick and easy ways to merge several PDF files into a single document. 1 2Drag and drop the files you want to merge. Locate the PDF files you want to combine on your computer, then drag and drop them into the PDF Combiner window. Place the files in the area where you see the message Drag and drop PDFs to merge them into one file with our PDF combiner.You can also click the blue Select files button. A File Explorer (Windows) or Finder (Mac) window will open where you can browse for and select the PDFs you want to merge. Advertisement 3Reorder the files if you want. If you want to change the order of the different PDFs within the merged document, simply click and drag them to your preferred order in the window. You can also add or remove PDF files from the list.To remove a file, hover over it and then click the trash can icon.To add more files, click the icon at the top of the merger window that looks like a document with a + in the bottom right corner.4Click Merge. Youll see this blue button at the top right corner of the PDF Combiner window.5Click Download. Once the files are finished processing, this button will appear on the left side of the page. By default, the merged file will save to your Downloads folder. Advertisement 1Download PDF Merger & Splitter. PDF Merger & Splitter is a free app that allows you to merge PDFs and extract pages from a PDF. You can download PDF Merger & Splitter for free from the Microsoft Store.[1] Use the following steps to download PDF Merger & Splitter:Click the Windows Start menu.Click the Microsoft Store icon, which resembles a white shopping bag.Click Search in the upper-right corner.Type "PDF Merger & Splitter" in the search bar.Click PDF Merger & SplitterClick GET. There are lots of similar apps available, and they all work similarly. Other free options include PDFsam Basic, Merge PDF Free, and Merge PDF PLUS.2Open PDF Merger & Splitter. PDF Merger & Splitter has an icon that resembles a page. You can find it in the Windows Start menu, or you can click Launch in the Microsoft Store once it finishes downloading.3Click Merge PDF. It's the first purple button in the center of the page.4Click Add PDFs. It's the first option in the upper-left corner. This option opens File Explorer and allows you to browse for PDFs.5Navigate to the location of the PDFs you want to merge. Use File Explorer to navigate to the location of the PDFs you want to merge. Double-click the folder the PDFs are located in to navigate to that folder.6Select the PDFs and click Open. You can select more than one file at a time by holding the Ctrl button and clicking the files you want to open. Then click Open in the lower-right corner.Click Add PDFs again to upload additional PDF files.To change the order of the PDFs, click the PDF file you want to move in the list, and click Move Up or Move Down above the list.7To remove a PDF, click the PDF you want to remove and click Remove above the list.7Click Merge PDFs. It's in the lower-right corner. This displays a Save prompt that you can use to save the merged PDFs.8Type a name for the merged PDF. Use the field next to "Filename" to type a name for the merged PDF.You can also select a location to save the file to.9Click Save. This saves your PDFs as a single, merged PDF. Advertisement 1Open a Finder window. Click the Finder icon in the Dock to open a new Finder window. Navigate to the location of the PDF files you want to merge.2Click the Gallery tab. At the top of the Finder window, click the tab that looks like a rectangle with a row of squares underneath. This will switch you to Gallery view.You can also click View in the menu bar at the top of your screen, then select as Gallery.3Command-click the PDFs you want to merge. Hold down the command key while clicking on any PDF files you want to combine. Select the files in the order in which you want them to appear in the merged PDF.4Click Create PDF. Once youve selected two or more PDF files, a button will appear in the right panel that says Create PDF. Click this button to merge your files. The new PDF will be saved to your Desktop.You can also select the files you want to merge in List view, then control-click them and select Quick Actions > Create PDF. Advertisement 1Launch the Preview app. The icon looks like a snapshot of a landscape with a magnifier in front of it.2Open the PDF files you want to merge. In Preview, click the File menu, then select Open. Navigate to the location of your PDF files and open them.You can select multiple files at once by command-clicking them, then clicking Open.You can also navigate to the PDF files you want to open in Finder, then right-click or control-click them and select Open With > Preview.3Duplicate the PDFs. To avoid making any unwanted permanent changes to the original files when you use this method, you may want to make copies instead of working with the originals. To do this, select each file, then click the File menu at the top of the screen and select Duplicate.4Open one of the duplicate files. It doesnt matter which one you start with, since you can rearrange order of the pages within the combined file.5Enable the thumbnail pane in the View menu. If you dont already see the sidebar that shows thumbnails of all the pages in your PDF, click View > Thumbnails in the menu at the top of the screen. It will appear on the left side of the PDF window.6Drag additional PDFs into the sidebar. Click any of the other PDF files you want to merge with the first one and simply drag and drop them into the thumbnail bar on the left side of the window. Click and drag thumbnails to change the order of the pages.Want to merge individual pages from another PDF into your document? Simply open the other PDF in preview, make sure Thumbnails is enabled, and drag the thumbnails of the desired pages over to the sidebar on the first document. Advertisement 1Open Adobe Acrobat. Adobe Acrobat has a red and white icon with a red looping swoosh in the middle. Adobe Acrobat is Adobes proprietary (paid) PDF creation and editing tool. Youll need to use one of the paid versions of Adobe Acrobat (rather than the free Adobe Acrobat Reader app) to merge PDFs. Adobe Acrobat is subscription-based, but Acrobat Pro offers a free trial option.2Click Tools. It's the second tab at the top. This displays the PDF creation tools.[2]3Click Combine Files. It's the second option on the Tools page. It has a purple icon that resembles two pages.4Click Add Files. It's the blue button in the center of the pages. This opens File Explorer on Windows, or the Finder on Mac.[3]5Navigate to the location the PDFs are stored. Use the File Explorer or Finder window to navigate to the folder the PDFs you want to merge are saved to.6Select the PDFs you want to merge. To select multiple files, press and hold Ctrl on Windows or Command on Mac. Then click the files you want to add.7Click Open. It's in the lower-right corner. This displays all the PDFs as thumbnail images in Adobe Acrobat.To add additional PDFs, click Add Files at the top of the screen.Click and drag the thumbnail images in Adobe Acrobat to change the order of the files.To remove a PDF, click a thumbnail to select it and click Remove at the top of the page.8Click Combine. It's the blue button at the top of the page. This combines all the PDFs in the thumbnail list into one PDF.[4]9Click File. It's in the menu bar at the top of Adobe Acrobat.10Click Save as. It's in the drop-down menu below "File" in Adobe Acrobat.11Click a recent save location or click Choose a different folder. You can select one of the recent save locations listed, or click the blue button that says Choose a different folder to select a different save location.12Type a name for the merged PDF. Use the field next to "Filename" to type a name for the PDF.13Click Save. It's in the lower-right corner of the Save window. This saves the merged PDF using the file name you choose.[5] Advertisement Add New Question Question How can I combine PDF files together? Do I use a specific software?
